

GYANARANJAN SAHU

MERN Stack Developer | Full Stack Developer

gyanastack@gmail.com | +91-7846813554 | Polasara, Odisha, India

LinkedIn | Portfolio | GitHub: github.com/gyanaranjan

PROFESSIONAL SUMMARY

Computer Science Engineering graduate (2022-2026) with hands-on experience building full-stack web applications using the MERN stack, with React.js as a core strength. Comfortable working across REST API development, authentication flows, and MongoDB-backed data models, with practical exposure to integrating third-party APIs. Focused on writing clean, working code, debugging issues methodically, and turning project requirements into functional applications.

TECHNICAL SKILLS

Languages & Core: HTML5, CSS3, JavaScript (ES6+), TypeScript, OOPs (Object-Oriented Programming), SQL

Frontend: React.js, React Hooks, React Router, Tailwind CSS

Backend & Database: Node.js, Express.js, REST APIs, MongoDB, Mongoose, SQL

AI Integration: Google Gemini API, OpenAI API

Tools & Platforms: Git, GitHub, Postman, Vercel

PROJECTS

AI-Powered Interview Preparation Platform | React.js, Node.js, Express.js, Google Gemini API, MongoDB

- Built a full-stack platform that analyzes resumes, job descriptions, and self-assessment inputs to generate personalized interview questions using the Google Gemini API.
- Created a skill-gap analysis feature that compares candidate inputs against target job requirements and outputs a structured 7-day learning roadmap.
- Built the React.js frontend and Express.js REST APIs, covering document processing, API request handling, and delivering recommendations to the user.

Authentication & CRUD Application | React.js, Node.js, Express.js, MongoDB

- Built a full-stack application with secure user registration, login, and logout, plus complete CRUD functionality for user-created records.
- Created RESTful Express.js APIs connected to MongoDB to handle create, read, update, and delete operations with persistent storage.
- Built a React.js frontend with protected routes and form validation so only authenticated users can access and modify their data.

Grocery E-Commerce Website | React.js, Node.js, Express.js, MongoDB, REST APIs, Tailwind CSS

- Developed a full-stack grocery e-commerce web platform featuring dynamic product catalog browsing, category filtering, search, and user cart management.
- Implemented secure RESTful API endpoints with Express.js and MongoDB for real-time inventory management, order processing, and persistent state.
- Engineered a responsive, mobile-first UI with React.js and Tailwind CSS, featuring optimized checkout flows and seamless client-side navigation.

INTERNSHIP EXPERIENCE

MERN Stack Development Intern - InQspider

6 Months (Ongoing)

- Working hands-on with React.js, Node.js, Express.js, and MongoDB as part of the development team.
- Contributing to building, testing, and debugging web application features in a collaborative team environment.

EDUCATION

Bachelor of Technology - Computer Science and Engineering

2022-2026 | CGPA: 8.0

Kalam Institute of Technology

Higher Secondary Education

2020-2022 | 72%

Kalam Higher Secondary College
